Easier than ever

USB 3.0 Type-C™ ports have two decisive advantages over the existing forms. They are smaller and therefore ideal for narrow notebooks and mobile devices and it is no longer necessary to plug in the plug in a certain orientation. It will always fit and save the user many small excisers.

4 x 5

Each of the four USB ports supports USB 3.0 bandwidth and thus transfer rates of up to 5 Gbit/s. This means that data can be transferred to the desired storage medium in the shortest possible time.

A symbiosis of function and design

The best devices are those that inspire us during use, both technically and visually. The IB-HUB1425-
