EMEET OfficeCore M3 Conference Speaker

The EMEET OfficeCore M3 conference speaker is a compact device designed for conducting online meetings in small and medium-sized rooms and for mobile work. It is equipped with 4 omnidirectional microphones that capture sound within a 360° range up to 5 meters. Additionally, it uses the VoiceIA®4.2 algorithm for noise reduction and echo cancellation, while full-duplex technology enables natural, uninterrupted conversation. The device is complemented by a wide range of connectivity options—from USB-C and a 3.5 mm jack to Bluetooth with support for two devices—making it easy to adapt to various work scenarios.

Clarity and Smoothness of Conversations

The use of four omnidirectional microphones ensures the device captures voices from all directions, regardless of where meeting participants are seated. The active speaker detection system, supported by lighting, further helps identify the source of the voice, which is particularly important when there are more participants. Additionally, full-duplex technology ensures that conversations flow naturally—without interruptions or artificial pauses, even when several people are speaking at once.

Clear sound and adaptability to the situation

The VoicelA®4.2 algorithm reduces ambient noise and eliminates echo, resulting in clear communication during calls. The device filters out background noise, ensuring that callers hear the voice clearly rather than office or home sounds. The built-in 5W speaker automatically switches between conference and music modes—in the former, it focuses on speech clarity, and in the latter, it delivers a richer sound with distinct bass and treble.

Mobility, Power, and Connectivity

The 5200 mAh battery allows for up to 20 hours of use, reducing the need for frequent charging and enabling you to use the device throughout the entire workday. The compact design, carrying case, and space for a USB adapter make it easy to transport, so you can take the speaker with you without any hassle. Additionally, the Daisy Chain feature allows you to connect multiple devices, which increases coverage in larger rooms.

Compatibility and everyday use

The EMEET OfficeCore M3 works with popular operating systems such as Windows, macOS, Linux, iOS, and Android, as well as the most commonly used video conferencing platforms, including Zoom, Microsoft Teams, and Webex. Zoom certification confirms stable performance in a business environment. Dedicated software allows you to change settings and update the device, giving you greater control over its operation. The package is rounded out by a well-thought-out design featuring a Kensington lock, which enhances the security of the equipment in the office space.

Manufacturer	EMEET
Model	OfficeCore M3
Microphone array	4-microphone omnidirectional array
Microphone type	MEMS
Microphone frequency response	100 Hz – 10 kHz
Voice pickup range	Up to approx. 5 meters (16 ft)
Peak output level	89 dB at 0.5 m
Maximum input power	5 W
Frequency response	20 Hz – 20 kHz (±3 dB)
Signal-to-noise ratio (SNR)	> 75 dB
Connection methods	USB-C cable, Bluetooth, USB adapter (dongle), 3.5 mm jack
Bluetooth version	Bluetooth 5.0
Bluetooth range	Up to 20 m
Bluetooth USB adapter	EMEET A300
Connected devices	1 via cable, 2 via Bluetooth simultaneously
Supported Bluetooth profiles	A2DP, AVRCP, HFR, SBC codec
Battery capacity	5200 mAh
Battery type	Lithium-ion
Playback time	Up to 20 hours
Talk time	Up to 18 hours
Number of meeting participants	Up to 12 people
Daisy chain	Up to 20 people
