Natec Drone

Headphones +

Microphone 2 x

Mini Jack 3.5mm

Model: NSL-0294

Manufacturer: NATEC

EAN: 5908257124614

Product Code: 657029

R740

The Natec DRONE headset delivers high-quality audio with its frequency response of 50 - 30000 Hz, ensuring clear sound across all ranges. Designed for comfortable use, it features on-ear headphones that allow for long listening sessions without discomfort. The wired connectivity adds reliability, while the boom microphone enhances communication clarity during calls or gaming sessions. With in-cord volume control, adjusting audio levels is seamless and convenient, making this headset suitable for entertainment and professional use.

Perfect for both casual listening and intensive gaming, the Natec DRONE is equipped with sensitive components, with a sensitivity of 119 dB and an impedance of 32 ohm. Whether enjoying music or engaging in conversations, this headset provides a balanced and immersive audio experience. It also includes a 2 m long headset cable for flexibility in movement, ensuring users can stay connected without feeling restricted.
