

NATEC Bluetooth adapter Fly V5.0 Class II

Model: NBD-2003

Manufacturer: NATEC

EAN: 5901969437997

Product Code: 657033

R706

Discover the freedom of wireless connectivity with the Natec FLY network adapter. This compact and efficient device transforms your computer into a Bluetooth-enabled hub, allowing you to connect a wide range of devices wirelessly. With Bluetooth 5.0 technology, it offers fast data transfer speeds and efficient power usage, making it suitable for both high-speed applications and energy-saving scenarios. The Realtek RTL8761B chipset at its core ensures stable and efficient wireless communication, while the adapter's support for Bluetooth Low Energy (BLE) technology further enhances its power efficiency. Whether you're at home or on-the-go, the Natec FLY's external form factor and USB 2.0 interface make it incredibly easy to set up and use, providing you with up to 20 m of wireless range in open spaces. It's the perfect solution for connecting peripherals like keyboards, mice, and headsets, or for syncing with your smartphone or tablet. Embrace the convenience of wireless connectivity with the Natec FLY.
