The Natec Krill 2 is a versatile carrying case designed for hard drives, small compact cameras, navigation devices, and power banks. Crafted from durable polyester, this case features a rigid design that ensures optimal protection for your devices against crush, damage, and shock. An internal mesh pocket offers additional storage for accessories, while the cushioned padding provides extra safety and comfort during transport. Its zipper closure ensures secure access, making the Krill 2 a practical companion for your travels and outdoor adventures.
