Niimbot B21 Pro Portable Label Printer (dark green)

Do you like everything to have its own place? The Niimbot B21 Pro is a compact label printer that will help you organize your space, create professional labels and keep your everyday items aesthetically pleasing. Thanks to its thermal printing technology, it doesn't require ink or toner - just insert a roll of labels and start printing. You can connect it to your smartphone via Bluetooth and conveniently edit content in the dedicated app. The 300 dpi resolution guarantees clear, precise printing, and the print width of 20 to 50 mm allows you to customize labels for different applications.

Functionality that makes life easier

The Niimbot B21 Pro will work well both at home and in the office. You can label documents, binders, spices, storage containers and even products for sale. The high print quality allows you to create

legible barcodes, price tags and logistics markings. Thanks to its powerful 1500 mAh battery, the device runs for a long time on a single charge, and a convenient USB-C connector allows you to quickly replenish power.

Retro design, modern technology

This is more than a printer - it's a gadget that looks great on your desk. The Niimbot B21 Pro impresses with a stylish, retro design inspired by classic typewriters. It blends in perfectly with a modern interior and is sure to catch the eye of any lover of stylish office accessories.

Easy operation and wide possibilities

Printing labels has never been so easy - just three steps: load a roll of paper, edit the content in the app and print the finished label. You can choose from a variety of fonts, icons and designs, creating labels tailored to your needs. The printer supports a variety of label types, including transparent and paper labels. With dedicated Dual-color labels (not included), the Niimbot B21 Pro allows you to not only print in black, but also in red.
