EAN: 6978061958209

Product Code: 658514

R4,408

NIIMBOT M3 Label Printer (White)

The NIIMBOT M3 portable label printer is a versatile solution for professionally labeling documents, equipment, cables, warehouse locations, and ID tags. It uses thermal transfer printing technology, offers a resolution of 300 dpi, supports labels ranging from 20 to 78 mm in width, and prints at speeds of up to 40 mm/s. The built-in 2000 mAh battery ensures long operating time, and Bluetooth and USB connectivity allow for convenient use of the device in the office, warehouse, or in the field. An additional advantage is the durability of the prints, which can remain legible for up to 8-10 years.

Clear and durable labels that last for years

The NIIMBOT M3 uses thermal transfer printing technology, which ensures high-quality markings and a long service life. A resolution of 300 dpi ensures legible text, barcodes, and QR codes, and tests show that the labels can retain their quality for up to 8-10 years. The prints are resistant to light and sunlight, as well as to water, oil, alcohol, and other chemicals. Additionally, the labels are scratch-

resistant and can withstand extreme temperatures ranging from -30°C to 80°C.

Wide Compatibility and User-Friendly Operation

The printer is compatible with Android and iOS systems and also works with PCs. Bluetooth and USB connectivity offer greater flexibility—you can design and print labels exactly as you prefer.

Designing labels with the app

The NIIMBOT app offers over 16,000 ready-made templates and extensive label design capabilities. For example, you can add text, graphics, icons, barcodes, QR codes, serial numbers, tables, and borders. You can also import data from Excel files, use smart data sorting, batch printing, and one-click printing. The software also supports, among other features, scanning codes for printing, creating labels from photos, and a speech-to-text function, which speeds up label preparation.

Support for Multiple Label Types

The NIIMBOT M3 supports labels ranging from 20 to 78 mm in width, making it suitable for a wide range of applications. It allows you to create labels for documents, cables, devices, warehouse locations, or merchandise in a store. The ability to choose from various materials, colors, and sizes makes it easy to tailor prints to specific needs.

Efficiency in Daily Work

The large supply compartment is compatible with various roll sizes, and the automatic paper positioning and first-label rewind features help minimize material waste. The maximum print speed reaches 40 mm/s, which speeds up project work. The print height can range from 8 to 350 mm, and for labels with a black marker, from 20 to 300 mm. This makes the printer suitable for both small markings and larger informational labels.

Applications Across Many Industries

The printer is designed to operate in a variety of environments. It can be used, among other places, in offices, warehouses, the transportation industry, manufacturing, retail stores, and jewelry stores.

Extensive configuration options and durable prints help you organize documentation, label equipment, and streamline your daily workflow.

Included in the package

- NIIMBOT M3 label printer
- User manual
- USB-A to USB-C cable
- Roll of labels (50 × 30 mm)
- Ribbon (black)

Manufacturer	NIIMBOT
Model	M3
Color	White
Printing method	Thermal transfer
Resolution	300 dpi
Battery capacity	2000 mAh
Battery type	Built-in lithium battery
Connectivity	Bluetooth, USB
Label width	20–78 mm
Effective print width	72 mm
Print height	8–350 mm (20–300 mm for labels with black mark)
Print speed	≥40 mm/s
Print head lifespan	≥50 km
Dimensions	199 × 127 × 77 mm
Weight	1170 g
Print durability	8–10 years
Label temperature resistance	From -30°C to 80°C
Compatibility	Android, iOS, PC
