The Gembird EnerGenie EG-UPSRACK-13 is designed for efficient power management with features suitable for a variety of environments. Featuring a 3000 VA capacity and line interactive UPS technology, this product provides voltage regulation and surge suppression to protect connected devices. The inclusion of an LCD display allows for easy monitoring of the UPS status, while automatic voltage regulation ensures consistent power output, even with fluctuations in the incoming power supply.

With seamless integration into rack systems, the EG-UPSRACK-13 comes with 4 lead acid batteries that deliver up to 8 minutes of runtime under full load, with a recharge time of 12 hours. The system
