Discover the Lanberg CAT 6 patch cable, a high-performance solution designed to meet the demands of modern networking. This cable features Copper-Clad Aluminum (CCA) conductors and HDPE insulation, ensuring optimal data transmission and integrity. Its snagless, molded design not only enhances durability but also facilitates easy handling and installation. With compliance to ANSI/TIA/EIA 568-B standards and tested performance up to 250 MHz, it is suitable for various high-speed data applications. The PVC jacket further adds to its durability, making it a reliable choice for both home and office environments.
