The Lanberg patch cable is designed for reliable, high-speed network connectivity. Built with foiled unshielded twisted pair technology, this Category 6 cable supports network speeds up to 250 MHz, making it suitable for various networking tasks. The molded and snagless design helps minimize cable strain and ensures a secure connection in tight spaces. Featuring Copper-Clad Aluminium conductors and HDPE insulation, this patch cable offers a durable construction that enhances signal quality while reducing interference. Its aluminum foil shielding and integrated drain wire provide additional protection against external noise, ensuring consistent performance in diverse environments.
