

LANBERG

patchcord cat.5e

3m white

Model: PCU5-10CC-0300-W

Manufacturer: LANBERG

EAN: 5901969421071

Product Code: 660368

R529

Discover the Lanberg CAT 5/5e patch cable, a high-quality solution designed to enhance your network's connectivity and reliability. This cable features 26 AWG stranded conductors, encased in a durable PVC jacket, ensuring it can withstand the rigors of daily use while maintaining flexibility. The snagless design prevents damage to the connectors during installation, making it an ideal choice for both professional and home networks. With Copper-Clad Aluminum (CCA) conductors and HDPE insulation, it supports data transmission frequencies up to 100 MHz, suitable for various networking requirements. Additionally, each cable is tested to meet ANSI/TIA/EIA 568-B standards, ensuring compatibility and reliability in a wide range of network environments. Whether you're setting up a new network or upgrading an existing one, the Lanberg CAT 5/5e patch cable offers a reliable, high-quality connection to keep your data flowing smoothly.
