Product Code: 660396

## **R773**

The Lanberg CAT 6 patch cable is designed to provide reliable and high-speed data transmission for various networking applications. Featuring molded and snagless connectors, this cable minimizes potential interference while ensuring a robust connection. The construction includes foiled unshielded twisted pair (F/UTP) technology, allowing for efficient signal transfer up to 250 MHz. Crafted from Copper-Clad Aluminium (CCA) conductors with HDPE insulation, it offers durability and flexibility, making it suitable for both home and professional setups. With aluminum foil shielding and a drain wire for added protection, the cable ensures a stable and clear signal. The RJ-45 male connectors on both ends facilitate easy Plug-and-Play usability. This patch cable meets the stringent standards of ISO/IEC 11801 Class E and ANSI/TIA/EIA 568-B, making it a dependable choice for anyone in need of quality networking solutions.
