

LANBERG Power cord CEE 7/7- >IEC 320 C13 3m angled right VDE

Model: CA-C13C-12CC-0030-BK

Manufacturer: LANBERG

EAN: 5901969436440

Product Code: 660438

R641

Lanberg's CEE 7/7 power adapter is specifically designed to be plugged to PC's and laptop's power supplies, while the IEC 320 C13 connector allows you to deliver a reliable, uninterrupted power supply for laptops and other IT or radio equipment. The cable ensures high performance and reliability during work. Due to its high quality, the cable can be used by domestic users, as well as demanding users, who require greater security and product reliability. By using an angled plug, it is possible to connect the cable to extremely inaccessible places, where plugging a regular connector would be very difficult (or in fact impossible).
