Unique toner design

Samsung printer cartridges are the smallest and lightest in their class, ideal for personal, small or home office users.

NO NOIS™

Imagine a printer that operates quietly and allows you to concentrate on other important tasks while it prints. The NO-NOIS™ engine design means the toner is stored in a fixed cartridge mechanism, eliminating noise and vibration. It also simplifies toner changes - there are no heavy toners to change, just small, easy-to-access toner bottles.
