

# Mousetrapper Prime Mouse Black USB-A + Bluetooth

Model: MT123

Manufacturer: MOUSETRAPPER

EAN: 7350071401231

Product Code: 670965

## R8,467

Everything you want from a Mousetrapper and more. A total of eight programmable buttons give you more options for configuring your Mousetrapper exactly as you want it. Prime lets you work wirelessly via a USB-dongle, and two separate buttons make it easy to scroll and zoom in and out. Download the MT Keys software, which lets you easily reconfigure all the button functions, add standard texts, create user profiles and much more. MT Keys is available for both Mac and PC.

The replaceable and wipeable wrist supports on Prime make it easy to keep the product clean. Prime also has a foldable keyboard pad, allowing you to adjust the height to your keyboard. Our Type keyboard is designed to fit perfectly with all Mousetrapper devices.

### Wireless

Option to work wirelessly. Rechargeable battery with 4 months of battery life.

### 8 buttons

Programmable buttons for customization to your needs with our app.

## **2000**

Allows precise and effective work with a DPI of 2000. Change the sensitivity and speed with MT Keys.

### **Why use a centrally positioned mouse?**

A centered position for your hands is essential to prevent RSI. Overstretching the arm to reach for the mouse beyond the keyboard is a common trap. By using an ergonomic mouse like Mousetrapper you get an ergonomically healthy position that keeps your arms and hands relaxed. It has been found that a centered mouse, often after only a couple of weeks, provides a noticeable improvement.

### **Mousetrapper Control Pad**

The Mousetrapper Control Pad is not a touch pad, it's a mechanical control pad with a very unique tactile feeling. By placing your index, middle and ring fingers on the control pad you can control the cursor with simple movements as the control pad moves smoothly in two dimensions. It is easy to use and gives the user maximum flexibility with the option of clicking directly on the Control Pad.
