Make your ideas come to life on the Swift X 14—An AI PC delivering fast and fluid performance in a premium, portable setup. All on a brilliant 2.8K 120Hz OLED display made to unleash your creativity.

A Performance Powerhouse

Get more done in less time and effortlessly multitask with unmatched speed and responsiveness powered by an Intel® Core™ Ultra 7 Processor¹ with Intel® AI Boost.

Further with AI, Faster on RTX

Discover the RTX AI advantage with up to NVIDIA® GeForce RTX™ 40701 Laptop GPU with MUX switch. NVIDIA Studio-validated for creators and pre-installed with Studio Drivers and exclusive AI tools, enhanced further by DLSS 3.5 with AI-powered Ray Reconstruction to handle the most graphically demanding software there is.

NVIDIA® GeForce RTX™ 40701 Laptop GPU

Built for the era of AI and powered by NVIDIA's industry-leading GPU architecture and next-gen ray tracing capabilities—GeForce RTX 40 Series Laptop GPUs employ AI-powered Max-Q technologies that optimize your laptop's performance, power, acoustics, and more for peak efficiency.

NVIDIA® Studio Exclusive AI Software

NVIDIA® Studio takes your creative projects to the next level. Unlock RTX and AI acceleration in top creative apps, with NVIDIA® Studio drivers for max stability, and a suite of exclusive NVIDIA AI creative tools—such as Omniverse, Canvas, and Broadcast—to bring ideas to life faster than ever.

AI for Creating

Supercharge your content creation with over 100 AI-enabled and RTX accelerated creative apps—including the Adobe Creative Cloud suite, Blender, Blackmagic Davinci Resolve, OBS Studio, and more. Transform your workflows and fast-track your creativity with next-gen tech including DLSS and OptiX.

AI That's Optimized

Swift X 14 AI PC is optimized for hundreds of AI apps, and flexes enough muscle to run apps like Stable Diffusion locally. Power up your AI tasks with faster compute times and better power optimization, all while staying ready for the next wave of AI advancements.

Copilot in Windows

Do more, quicker than ever across multiple applications with the centralized generative AI assistance of Copilot in Windows 11.2 Accessible at the touch of a button with the Copilot Key.

Acer PurifiedView™

With AI features like automatic framing, advanced background blur, and gaze correction, this AI-powered enhancement ensures you always put your best face forward.

Acer PurifiedVoice™ 2.0

Employing a 3rd mic and AI noise cancellation, Acer PurifiedVoice™ 2.0 suppresses unwanted background noise—ensuring your voice is exceptionally clear and crisp.

Captivating Color and Clarity

Be thoroughly amazed by the brilliance of 2.8K 120Hz OLED—offering vivid color accuracy and remarkably deep blacks—with exceptional Calman Verified color accuracy and the flexibility to switch color profiles on a 16:10 display that's made for makers.

True-to-Life Color

Experience the most accurate, vivid, and true-to-life colors possible with 100% DCI-P3 color coverage, Delta E 2, and Calman Verified calibration for professional, cinema-grade color accuracy.

Naturally Balanced Whites

Acer Light Sensing technology measures ambient light around you and seamlessly adjusts the brightness and color temperature of your display, for naturally balanced whites in any lighting condition.

Ultra-High Contrast

At 1,000,000:1 contrast ratio and 500 Nits peak brightness, VESA DisplayHDR™ True Black 500 certified displays offer photorealistic visuals with ultra-high contrast and deep blacks.

Eyesafe® Certified 2.0

Professionally calibrated and certified by TÜV Rheinland to balance blue light limitations and keep potential eyestrain to a minimum—for more comfortable, extended viewing.
