

Axagon PWC-5V5 SMART Car charger 24W, 2x USB-A port, 5V/2.4A + 5V/2.4A

Model: PWC-5V5

Manufacturer: AXAGON

EAN: 8595247904355

Product Code: 675623

R993

Dual AXAGON PWC-5V5 car USB charger to charge up to two mobile devices at a time.

With a total power of 24W, the charger recharges mobile phones and tablets at the same speed as the mains USB power adapter.

Two USB SMART 5V/2.4A outputs allow charging of most mobile devices.

It is compatible with Apple iPhone, iPad, iPod, and Android phone and tablet charging standards.

The AIC function recognizes the connected device and automatically selects the optimal charging speed, while the CV/CC function ensures steady course of charging.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The advanced protection system at the charging adapter output protects the device being charged from damage.

The car charger indicates the correct input power with a blue LED built inside, its light does not dazzle and does not distract you while driving.

The body of the power adapter has a pleasant shape and size, so it can be easily removed from the car cigarette lighter socket.

Input:

- input voltage DC 12 V - 24 V (WIV function), supports both passenger cars and trucks
- standard CL input - car cigarette lighter socket

Outputs:

- two outputs
- 2x USB type A port: SMART: Smart Charging - 5V/2.4A and standard 5V charging
- support for simultaneous charging from both outputs
- total maximum power 24W, total maximum current 4.8A

The charger charges devices with the following technologies:

- Standard charging of all devices that support 5 V and Apple iPhone 5, 6, SE, 7 charging.
- SMART 5V/2.4A charging, Qualcomm Quick Charge 1.0, USB Battery Charging 1.2 and quick charging of Apple iPhone 8, X, XR, XS, XS Max and iPads.

The charger supports WIV, AIC, and CV/CC functions:

- Wide Input Voltage - function of a wide range of input voltage; it protects the adapter against undervoltage and overvoltage at the input and enables automatic detection of 12V or 24V on-board distribution.
- Automatic Intelligent Communication - function of automatic recognition of the connected device to select optimal charging parameters.
- Constant Output Voltage / Constant Output Current - the constant voltage and constant current hold function prevents the output power fluctuations; this function ensures steady course of charging.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Complex output protection: OCP, OVP, OTP, OSP:

- Over Current Protection - protection of output against current overload.
- Over Voltage Protection - protection against overvoltage at the output.
- Over Temperature Protection - protection against overheating of the adapter.
- Output Short Circuit protection - short circuit protection at the output.

Other features:

- Decently shining through blue LED indicates the input voltage connection,
- Dimensions: depth 59 mm, diameter 28 mm,
- Weight: 20 g,
- Material: non-flammable plastic.

Package contains:

- dual car charger,
- multilingual manual ENG/CZ/DE/ESP/FR/HU/IT/PL/RO/RU/SK/BG,
- packed in a cardboard box with a visibly presented product.
