

Microconnect USBEXT60M network extender Network transmitter & receiver Black

Model: USBEXT60M

Manufacturer: MICRO CONNECT

EAN: 5704327258469

Product Code: 691138

R1,184

The MicroConnect USBEXT60M is a versatile CAT 5/5e/6 to USB 1.1 Converter, designed to extend USB connections over considerable distances. Utilizing standard network cabling, this extender allows you to bridge the gap between your USB devices and host computer by up to 60 meters. Ideal for scenarios where direct USB connections are impractical, the USBEXT60M leverages existing CAT5/5e/6 infrastructure for a clean and efficient installation. Benefit from MicroConnect's expertise in connectivity solutions to ensure reliable data transfer and seamless operation of your USB peripherals, even at extended ranges. Trust in our 20+ years of experience to provide a robust and high-quality networking solution.
