Model: VESADOCK1

Manufacturer: I-TEC

EAN: 8595611703140

Product Code: 691795

R1,062

An important element of a modern working environment is a comfortable, clean and efficient desktop. Through intelligent use of the VESA standard, you can now keep your desk better organised and tidier than before. By mounting the docking station on the rear of the monitor and managing the associated cables, we improve the working environment and comfort for the user, and enhance protection against theft.

This bracket can be ergonomically installed vertically or horizontally, based on your preference and/or monitor type. The holder is also compatible with the vast majority of monitor stands.

List of compatible docking stations:

- i-tec USB 3.0 / USB-C / Thunderbolt 3 Dual 4K Display Docking Station + Power Delivery 65W
