

Zebra ZE500 label printer 300 x 300 DPI 305 mm/sec Wired Ethernet LAN

Model: ZE50043-L0E0000Z

Manufacturer: ZEBRA

EAN: 8596375176317

Product Code: 694119

R96,690

ZE500 Print Engines

The ZE500 series takes an innovative approach to OEM print engines. Leveraging customer research, the design focuses on ease of use, integration and servicing. Built with the customer in mind, the ZE500 is designed to keep mission-critical print-and-apply applications operating with no interruptions.

Used For:

- Cross Docking;
- Receiving/Shipping;
- Compliance Labeling;
- Order Labeling.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The elegant design of the ZE500 simplifies maintenance and dramatically reduces downtime. All three rollers can be exchanged in minutes, with no need to access the printer's electronics. The wide open printhead makes cleaning and replacement simple, and the quickchange modular drive system reduces printer repair time.

Routine operations such as ribbon changing are simple and straightforward (and identical for both print widths). The new graphic display can be deported and rotated, enabling flexible positioning for improved ease of use and integration.

The user experience is much improved: the design enables easy integration with print-and-apply machinery plus has better resistance to dust and water. Expanded connectivity ports and enhanced software control of the applicator port provides further integration flexibility.
