The Samsung Odyssey OLED G8 features a 32-inch Quantum Dot OLED display, delivering a native resolution of 3840 x 2160. With a refresh rate of up to 240 Hz and a response time of 0.03 ms, this monitor is designed for gamers seeking smooth visuals and rapid reactions. Experience vibrant colors with support for 1 billion shades, thanks to its 99% DCI-P3 color gamut and HDR10+ Gaming capabilities. The ergonomic design allows for height adjustment, tilt, swivel, and pivot, ensuring comfortable viewing angles, while features like Eye Saver Mode and Flicker-Free technology enhance long-term viewing comfort. Equipped with HDMI and DisplayPort interfaces, the monitor supports multiple connectivity options. Built-in USB 3.2 Gen 1 hub facilitates easy access to peripherals.

Additional functionalities such as the Black eQualizer for better visibility in dark scenes, Super Arena Gaming UX, and Off Timer Plus make this monitor a versatile choice for gaming and everyday use. The monitor also utilizes recycled plastic and presents a sleek metal-like finish, reflecting a commitment to sustainable technology without compromising on style and performance.
