such as your smartphone or tablet. Making your options even more versatile.

HDMI ARC/CEC

Connecting made easy: with HDMI ARC you only need one cable to connect your Sharp soundbar to your TV. The transmission quality is extremely stable and interference-free. HDMI CEC tidies up things in terms of the remote control at the same time. Your soundbar doesn't need any extra controls, and you simply control it with your TV remote.

Equalizer (EQ) presets

The equalizer presets let you choose the sound that sounds best for you – and fits your music or entertainment style perfectly.

Digital optical-in

Receive audio signals in perfect digital quality: the prerequisites for this are provided by the connection for an optical digital cable. Works interference-free even over long distances, for example if your TV or console is on a different floor.

Compatible with any TV

For better entertainment: you can easily upgrade your TV acoustically with your Sharp soundbar. It fits – whatever TV set you have.

Remote control

On or off, loud or quiet – you can easily control these and your Sharp audio device's other features with the remote control. From the comfort of your sofa, for example.
