Reverse Layout

Motherboard Support

All connectors on the underside of the motherboard for clean cable management and a minimalist build appearance

P50 DS is perfect for hidden-connector PCs and makes cable management much easier

ZM-AF120 ARGB

1. The blade vibration is minimized by preventing the trembling of the blades during fan operation and the durability is enhanced
2. Wind noise is minimized by suppressing the vortex phenomenon that occurs on the blades
3. Airflow is maximized by minimizing the amount of air flow lost to the outer circumference of the rotor

Rotating PCI slot for GPU installation direction

(Vertical/Horizontal)

Tool-Free Tempered Glasses

The front and side panels can be easily and completely removed for convenient access to PC components

The tool-free ball head -structured front and side tempered glass enhance user's convenience

Easy panel management with a groove- fixing structure at the bottom of the tempered glass

Unrestricted Cooling Potential

Steel side panel with two separate air-vents provides enhanced ventilation and additional airflow to system

Complete Dust Protection

Top and Bottom Dust filters prevent any dust

Tool-free, ball head type dust filter
