

Neewer Z2PRO-F 3000mAh Speedlite Flash for Fujifilm Cameras

Model: Z2PRO-F

Manufacturer: NEEWER

EAN: 6976831830359

Product Code: 707807

R4,178

NEEWER Z2PRO-F Flash

The NEEWER Z2PRO-F is an advanced Speedlite flash designed for Fujifilm cameras, offering 76Ws of flash power, TTL support, manual mode, HSS up to 1/8000 s, and a high-capacity 7.2V/3000mAh lithium battery. The model is equipped with a modern cooling system that allows for up to 100 full flashes without overheating, as well as a quartz lamp with a lifespan of up to 100,000 flashes. The flash is compatible with Fujifilm cameras such as the X-T5, X-T50, X-S20, X-H2, X100VI, and GFX50S, and offers 2.4G wireless communication at a range of up to 100 meters.

Stable light and performance during long sessions

The Z2PRO-F model was designed for intensive use, which is why it features an efficient cooling system and a new quartz tube design. This solution allows for up to 100 full continuous flashes without the risk of overheating, which is useful for photojournalism, wedding photography, or dynamic shoots. The 76Ws power ensures bright and even lighting of the frame, while the stable color temperature helps preserve natural colors in photos. The swivel head with a 330° rotation range and tilt adjustment from -7° to 120° allows you to conveniently bounce light off walls or the ceiling, making photos look more natural and soft.

Advanced features for greater control over lighting

The NEEWER Z2PRO-F offers full support for TTL, manual, and stroboscopic modes, making it easy to adjust settings for various shooting conditions. The TCM switch allows for instant switching from TTL to manual mode, streamlining workflow during dynamic shoots. Users can adjust the power manually from 1/1 to 1/256, sync with short HSS shutter speeds up to 1/8000 s, and use first- and second-curtain sync.

Wireless Communication and High-Capacity USB-C Battery

The built-in 2.4G wireless system allows you to control the flash from a distance of up to 100 meters and supports 4 groups and 32 channels. The Z2PRO-F can operate as both a master and a slave unit, making it easier to build more complex lighting setups. The model is also compatible with the Godox X system and select NEEWER accessories, making it easier to expand your photography setup in the future. The 3000mAh lithium battery allows for approximately 600 full flashes on a single charge, and the USB-C port enables convenient charging without the need for a separate charger. The package is rounded out by a compact design, a hot shoe mount, and included accessories such as a stand, a USB-C cable, and a protective case.

Compatibility with Fujifilm Cameras

The NEEWER Z2PRO-F flash was designed specifically for Fujifilm camera users, ensuring full compatibility with TTL functions and stable wireless communication. The model is compatible with many popular X and GFX series cameras, making it suitable for both amateur and professional photography. It supports, among others, the Fujifilm X-T50, X-S20, X-T5, X-H2, X-H2S, X-T30 II, GFX100S, X-E4, X-S10, X-T30, GFX50R, X-T3, X-H1, X-T20, GFX50S, X-T10, X100VI, X100V, and
