R2,226

Print wonderful photos fit for selling or displays with the updated LUCIA PRO II inks for your imagePROGRAF PRO-1100 A2 photo printer. This pigment-based ink system has been enhanced, delivering vivid colour, delicate gradation and improved colour reproduction in dark areas. The inks are durable, delivering incredible 200 year lightfastness², abrasion and scratch resistance and robust output handling, ensuring your prints retain their image quality. These inks come in a range of colours, meaning you can top up whichever ink is running low.

- Designed for your imagePROGRAF PRO-1100 A2 photo printer, giving you professional prints that are perfect for selling or displaying
- Capable of delivering rich colours and delicate gradation, the high-density arrangement of colour materials achieves vivid colour across your print
