Model: TAR5100/10

Manufacturer: PHILIPS

EAN: 4895229158627

Product Code: 708407

R2,794

Clear sound. IPX4 splash-resistant design

You can safely use this small Bluetooth clock radio in the bathroom—or put it on the bedside table without worrying about that glass of water nearby! You get clear sound with a Dynamic Bass Boost function, and there's a kitchen timer that's super handy if you're cooking while listening to your shows.

Large, easy to read display with adjustable brightness

The clear LCD display with big clock digits makes it easy to see what time it is—or read the artist and song information from the DAB+ station that you're listening to. You can adjust the brightness to suit your room or dim the display at night.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Easy wireless streaming via Bluetooth

This radio does more than just radio. Bluetooth 5.3 connectivity lets you stream podcasts, playlists and more from your smart device to the radio, and you'll enjoy a stable connection indoors and out.

FM/DAB+ digital tuner with 20 FM and 20 DAB+ presets

Music, news, drama, or sports? This DAB+/FM radio gives you the widest selection of stations and crystal-clear reception. Digital tuning makes your favourite stations super easy to find, and you can store 20 FM presets and 20 DAB+ presets for quick and easy listening.

Dual alarms and Sleep Timer

If you like falling asleep to the sound of the radio, you can use the Sleep Timer to control how long the radio plays for—and set two alarms to ensure that you wake up. Alarms can use an alarm tone or the radio, and the volume starts low before gradually increasing.

Responsible design and packaging

We're continually working to make our supply chain more sustainable and transparent. This clock radio is made with post-consumer recycled plastics, and our packaging uses FSC-certified recycled cardboard and soy-based ink.
