Made from durable steel, the MA-RSN supports up to 5kg, offering unrivalled stability for your devices. It also features anti-slip silicone pads that prevent any slipping and provide safe use. Essential tools are included for quick and easy installation.

SMART PORTABLE DESIGN

Its foldable and compact design allows you to easily transport it, ideal for taking it with you anywhere. In addition, its intelligent heat dissipation system provides optimal airflow to your laptop or tablet and keeps it perfectly cool, even during long sessions of use, avoiding overheating.

360° SWIVEL, FULL ADJUSTMENT AND ADVANCED ERGONOMICS

Featuring a fully adjustable design, the stand offers 360° rotation, customizable tilt angles, and height adjustment to achieve the perfect posture. Whether you're working, studying, or gaming, this stand ensures optimal ergonomics, helping to reduce neck and back strain for a more comfortable and healthier experience that improves your daily well-being.
