mount, metal mesh pop filter and latency-free headphone jack input. Plug & play USB connection and full metal construction for extreme durability.

INTELLIGENT CONTROL KNOB

Total customization thanks to the smart control knob that lets you choose between different audio modes and adjust the microphone gain:

1. CARDIOID - For clear, directionally focused sound, perfect for broadcasting, instrument recording, and vocal recordings
2. NOISE REDUCTION - Actively eliminates external noise and interference, providing a clean, crisp recording
3. MUTE MODE - Quickly and visually mute the microphone thanks to the smart LED indicator
4. MICROPHONE GAIN - Adjust the microphone sensitivity to capture audio at the perfect level, ensuring your recordings are crisp and balanced

TWO VERSIONS AVAILABLEBLACK OR WHITE

Available in two colors, black and white, choose the one that best suits your setup!

LATENCY-FREE HEADPHONE JACK

Listen to your voice or music through the microphone in real time with your headphones connected to the 3.5 mm jack port for maximum control.

DYNAMIC ARGB RING LIGHTING

Experience stunning Dynamic ARGB RING lighting with customizable visual effects that can be easily controlled with the touch sensor. Add a touch of style to your streams or recordings to make them that much more engaging

PROFESSIONAL MATERIALS

All-metal microphone and stand constructed from the finest materials for maximum durability and stability to keep your microphone secure.

METAL MESH POP FILTER

Effectively reduces distortion from plosive sounds and sibilance, making the audio more natural and clean thanks to the metal mesh pop filter.
