

Conceptronic ABBY24G USB-C to Dual-Port Gigabit Network Adapter with 2- Port USB Hub

Model: ABBY24G

Manufacturer: CONCEPTRONIC

EAN: 4015867243701

Product Code: 719045

R1,562

The USB-C to Dual-Port Gigabit Network Adapter with 2-Port USB Hub expands a single USB-C port into a versatile wired networking and connectivity solution. Equipped with dual Gigabit Ethernet ports, it delivers reliable wired network speeds of up to 1000 Mbps per port with simultaneous operation, making it ideal for advanced networking tasks, redundancy, or multi-network environments.

An integrated 2-port USB-A hub provides convenient connectivity for peripherals such as keyboards, mice, and storage devices, while USB 3.2 Gen 1 technology ensures SuperSpeed data transfer rates of up to 5 Gb/s. Wake-on-LAN support enables remote system startup over the network, supporting efficient IT management and remote access scenarios.
