Provides a vibrant and infinite RGB color to computer case.

Milky White Blade

Optimal airflow is applied to the design.

Addressable RGB Sync

Addressable Sync support provides Milky color RGB LED effects.

Hydraulic Bearing

With a hydraulic bearing, you can experience an amazing operating life of 50,000 hours. Hydraulic bearings, like ball bearings, do not come into contact with metal, and a thin layer of lubricant replaces bearings. It has very low noise and heat also is strong against internal shock, so it shows high reliability without issues even after long use.

Motherboard Addressable RGB LED Sync Support

ZALMAN's Z-SYNC addressable RGB supports a variety of modes and tuning effects to make your new gaming PC more vibrant/colorful.

Pre-installed Anti-vibration Rubber Pads

The housing is made of a rugged material. It has excellent durability and anti-vibration rubber pads for minimizing the vibration generated during fan operation.
