GODOX SFGV8080 Softbox

The GODOX SFGV8080 Softbox is a complete lighting kit for outdoor photography that includes an 80 × 80 cm foldable softbox, a Godox S holder with a Bowens mount, a grid, an internal and external diffuser, and a carrying bag. It allows you to achieve soft and even light, effectively illuminate your subjects, and better control shadows whether you're shooting outdoors or in the studio.

Quick Setup and Convenient Transport

The softbox's foldable design allows you to quickly set up the kit for use. The Godox S mount with adjustable tilt angle ensures stable mounting for most news flash units, and the Bowens mount also allows you to use other light modifiers. The included grid facilitates precise light direction, while the carrying bag allows you to conveniently transport the entire kit.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
