enhanced compatibility with various 3rd party devices and services to integrate business operations.

Modular functionality to support any payment type

Boost every customer experience with the intuitive all-in-one payment and ordering system with no additional peripherals needed. Adopting a modular design, Samsung Kiosk offers a variety of customer payment options including credit card, barcode, QR code and NFC, along with a built-in printer.

All-in-one solution with upgraded compatibility

Samsung Kiosk operating on Windows is an all-in-one solution without the need for an external PC. With Windows 10 IoT Enterprise OS, it enables flexible connection with versatile devices and services, making it suitable for a wide array of business use cases.

Robust yet stable performance

Powered by 11th Gen Intel® Core™ Processor, Samsung Kiosk built on Windows OS features high performance computing power for flexible, stable, and enhanced capabilities that deliver amazing and robust experiences to users in any business environment.

Compact and modern design

Samsung Kiosk is composed of a single display part and connection box, along with an optional stand. The design enables clean and convenient cable management while the grey-white color and simple stand means the kiosk blends perfectly into any store interior with a stylish look.

Versatile solution for any scenario

For enhanced flexibility in any business environment, Samsung's new kiosk offers three installation types – countertop, floor stand and wall-mounting – along with hidden cabling and power strip, with no external PC needed either for optimized space saving.

Keep the screen clean

Thanks to an Antimicrobial Coating, Samsung Kiosk inhibits microbial growth to help protect against certain bacteria. This enables customers to stay focused on what's on the screen with peace of mind.

Minimize accidents and risks

Shatterproof protection
