Upgrade your WiFi to First Class

With WiFi 6 experience lightning-fast streaming and responsive gaming. With up to 2.5X the capacity of WiFi 51, there’s room for more devices, to surf, stream, and game simultaneously, without impacting speed or reliability

WiFi for the Whole House

Create a powerful One WiFi network that extends your existing network, bringing ultra-fast coverage throughout your home. Ideal for small to medium-sized homes

Increased Processing Power

Dual-core 1.3 GHz processor boosts performance for smoother 4K streaming and more responsive gaming

One (1) Gigabit Ethernet Port

For maximum performance, the built-in Gigabit Ethernet port connects directly to a wired device, delivering an unparalleled gaming and streaming performance

One WiFi Name

Seamlessly switch between networks in your home for the strongest connection possible with one WiFi name and security password

Easily Create a Mesh WiFi 6 System with your Existing Router

Expand coverage of your existing router using your current WiFi name and password. The wall-plug design has three powerful internal antennas that extend WiFi signals to where your router WiFi cannot reach. This AX3000 Mesh Extender is backward compatible with previous WiFi generations (11b/g/n/a/ac) and will work with all your existing internet-connected devices.
