Exclusive free connected app

The responsive and intelligent Skin i-expert system learns your needs and personalizes the treatment to your skin. The free connected app guides you in real-time so that you always do it right.

Accurate and thorough from head to toe

This IPL comes with precision caps for smaller, sensitive areas like the face and pubic areas (including mons pubis, labia majora, perineum and around the anus), a standard cap for underarms, and a wide cap for larger body areas like the chest or upper legs.

Smooth skin even in delicate areas

At the touch of a button, 2 sensitive skin modes adapt the light intensity for long-lasting smooth skin

even in sensitive & delicate areas. Easy to use, ideal for first-time users.

Built in skin protection

Skin tone varies across the body, so the skin sensors (with UV filter) reads your skin 80x/sec to detect even the slightest skin tone variations and automatically adapts the power of every flash to your different body areas. This gives you the perfect balance of power for long-lasting, safe & easy results at home.

Corded IPL

Unlike cordless IPLs, the corded Skin i·expert IPL always maximizes power and flashes speed, with high power level of up to 6j/cm² and rapid flashes occurring every 0.5 seconds. This seamless stream of high-speed flashes ensures effortless gliding, minimizing the possibility of missed spots.

Skin tone & Body hair type chart

Exclusive² built-in skin protection auto-optimizes power to your skin tone.

Braun IPL is suitable for a wide range of skin tones from light to medium dark skin tones, with hair ranging from natural blonde to dark brown or black. IPL technology is least suitable on very blonde, red, grey or white hair where there is less melanin to absorb the light.
