Experience next-gen speeds up to 1.5 Gbps with the dual-band Archer AX1500 featuring Wi-Fi 6 for faster, more enjoyable 4K/HD streaming, online gaming and more.

More Devices.Less Congestion. Smarter Home.

Archer AX1500 talks to all your streaming, gaming, mobile and smart home devices on your network using revolutionary OFDMA and MU-MIMO, which work together to organize the flow of data to multiple devices while simultaneously reducing lag.

More Reliable Coverage

Achieve the strongest, most reliable WiFi coverage with Archer AX3000 as it focuses signal strength to your devices using Beamforming technology and four antennas.

Reduced Power Consumption. Increased Battery Life.

Target Wake Time (TWT) talks to your devices and negotiates when and how frequently they should transfer data to increase device sleep time, extending battery life.

Easily Set Up and Manage Your WiFi

Set up and manage your WiFi through the TP-Link Tether app (Android, iOS). Access WiFi settings such as parental controls, guest privileges and more right from your smartphone.
