

Power Supply ENDORFY Vero L5 Bronze 500 W 500 Watts Efficiency 80 PLUS BRONZE MTBF 80000 hours EY7A004

Model: EY7A004

Manufacturer: ENDORFY

EAN: 5903018666136

Product Code: 761713

R1,708

The ENDORFY Vero L5 Bronze 500W is like a God mode for you your PC. It's a stable power supply with DC-DC converters to regulate voltages and deliver 500 W of continuous power. With Taiwanese Teapo electrolytic and aluminum – polymer capacitors inside, the ENDORFY Vero L5 Bronze 500W can operate at temperatures up to 105ºC. No wonder this bad boy is 80 PLUS® Bronze certified. The Vero is also protected against short circuits, system overloads and other mishaps. A quiet Stratus fan with FDB bearings keeps operating temperatures

low. And with a chassis length of just 14 cm long, it can fit into a smaller PC too.

Rise of the machines? What’s this?

Life writes the best screenplays – that’s why even a trusty PC can crash start the rise of the machines.

In the past, we’ve experienced a few (or more) blue screens and unexpected resets – so we designed the Vero L5 Bronze 500W to hold a stable voltage at all costs. Even when it's working with demanding components.

You may be wondering how we did it. The answer is simple: it’s all down to the DC-DC converters, which guarantee precise voltage regulation, stable operation and a total continuous output of 500 W. On top of that, you get a full package of protection against short circuits and overloads, among other things. Thanks to these, in case of overvoltage, the power supply will simply shut down.

Quite quiet (and cool!)

When you're working and playing at 100%, you need a power supply that can keep up with you your PC. That's what the Vero L5 Bronze 500W is all about. It's a powerful piece of hardware that stays cool (and quiet) even when you're in the middle of rendering 3D projects or video coding marathons.

All thanks to the quiet FDB – bearing Stratus fan we installed in the power supply. It's quite small, but it keeps the temperature as low as a fridge on a hot night – but without the annoying noise. Maybe one day we’ll add a cup holder to the Vero L5 Bronze 500W.

Watchmen Capacitors straight from Taiwan

The Vero L5 Bronze 500W is a power supply that can compete with the most hardcore survival nerds. It doesn’t mind extreme temperatures – the capacitors are rated to operate at up to 105°C.

All thanks to Taiwanese Teapo watchmen capacitors. They take up little space, but their aluminum casing hides high-end power.

3-year warranty

The Vero L5 Bronze 500W comes with a 3-year warranty. We’re pretty sure you

won't use it anyway (because, you know, it's ENDORFY quality), but we thought you'd be happy to have it. YOLO!

Summary: ENDORFY Vero L5. Total power: 500 W, AC input voltage: 230 V, Max output current (+3.3V): 20 A. Motherboard power connector: 24-pin ATX, Motherboard power cable length: 57 cm, SATA power cable length: 820 mm. Purpose: PC, Power supply unit (PSU) form factor: ATX, 80 PLUS certification: 80 PLUS Bronze. Product colour: Black, Cooling type: Active, Fan diameter: 12 cm. Cables included: AC, CPU, PCIe, Peripheral (Molex), SATA | Vendor Homepage: https://endorfy.com/en/product/vero-l5-bronze-500w/ | Bendroji galia: 500 | AC įėjimo įtampa: 230 | Didžiausia išėjimo įtampa (+3,3 V): 20 | Didžiausia išėjimo įtampa (+12 V): 70 | Didžiausia išėjimo įtampa (–12 V): 0.3 | Didžiausia išėjimo įtampa (+12 VSB): 3 | Maitinimo apsaugos ypatybės: Apsauga nuo per didelės įtampos/Minimaliosios įtampos apsauga/Trumpasis jungimas/Viršijus galią/Viršijus nuolatinę srovę | Motininės plokštės maitinimo jungtis: 24-pin ATX | Motininės plokštės maitinimo kabelio ilgis: 570 | SATA elektros jungčių skaičius: 5 | SATA maitinimo kabelio ilgis: 820 | Periferinė (Molex) galios jungtis (4-pin): 1 | Periferinio („Molex“) maitinimo kabelio ilgis: 820 | EPS maitinimo jungtis (4 + 4 kontaktai): Taip | PCI „Express“ maitinimo jungtys (6 + 2 kontaktai): 1 | PCI „Express“ galia kabelio ilgis: 560 | Perdavimo laidu tipas: Ne modulinis | Sertifikatas 80 PLUS: 80 PLUS Bronze | Palaikomos motininės plokštės formos faktorius: ATX,Micro BTX,Mini-ATX | Paskirtis: PC | Maitinimo bloko (PSU) formos koeficientas: ATX | Aušinimo padengimo tipas: FDB | Vidutinis laikas tarp trikčių (MTBF): 80000 | Produkto spalva: Juoda | Aušinimo tipas: Aktyvus | Ventiliatoriaus skersmuo: 120 | Ventiliatorių skaičius: 1 | Ventiliatoriaus greitis: 0 - 1400 | Ventiliatoriaus vieta: Viršus | On/off mygtukas: Taip | Darbo temperatūros diapazonas (TT): 0 - 105 | Pridėti kabeliai: AC,CPU,PCIe,Peripheral (Molex),SATA | Plotis: 150 | Ilgis: 140 | Aukštis: 87 | Svoris: 2060 | Pakuotės tipas: „Box“ | Bruto svoris: 2.18 | Neto svoris: 1 | Vienetų skaičius vienoje siuntimo dėžėje: 6 | Vieneto plotis: 26.5 | Vienetų skaičius ant paletės: 0 | Shipping Box Height: 28 | Vieneto gylis: 9.5 | Vieneto aukštis: 22 | Name: CASE PSU ATX 500W/VERO L5 BRONZE EY7A004 ENDORFY | Model name: Vero L5 Bronze 500 W
