The Active Defense Series Small PT Camera delivers advanced performance and functionality. Upon detecting an intrusion, it promptly activates sound and light alarms, while simultaneously transmitting critical information to your mobile device for instant alerts. The camera also features two-way talk, enabling real-time communication with individuals on the site. Additionally, its Smart Dual Illuminator enhances visibility, allowing the camera to capture clear, full-color videos and images whether day or night, thereby providing reliable evidence of events while minimizing light pollution. Thanks to its 4G network capability, the camera also delivers continuous surveillance, even in areas with limited Wi-Fi access, making it an ideal choice for remote outdoor locations such as farms, ranches and orchards.
