home. Compatible with all major ecosystems, including Apple Home, Google Home, Amazon Alexa, SmartThings, and Home Assistant (via RTSP connection), it is a powerful smart camera.

- **2K Clarity During Day and Night:** The Camera G100 Select offers 2K clear resolution and f/1.8 aperture, allowing you to capture every detail at higher resolution for impeccable image quality. Dual night modes with spotlight and invisible infrared ensure that this camera sees everything in vivid color and clarity, day or night, ensuring that no detail is missed even in the darkest conditions.
- **HomeKit and 5-in-1 Ecosystem Support:** Camera G100 Select supports seamless streaming via Wi-Fi to Apple Home (including HomeKit Secure Video^①), Google Home, Alexa, and SmartThings. It also integrates with Home Assistant via RTSP for advanced automation. With built-in 2-Way Audio, users can communicate in real time, making it easier to interact with visitors or communicate directly with family and friends.
- **Indoor or Outdoor, with IP65 Protection:** This IP65 waterproof camera is designed to withstand all kinds of bad weather, allowing you to easily transition from indoor to outdoor use, ensuring that the device can operate smoothly and effectively provide security.
- **24/7 Local and E2E-Encrypted Cloud Storage^②:** Camera G100 Select supports 24/7 local recording to microSD cards (up to 512GB, sold separately) and backup to local NAS servers^③. Time-lapse capture^④ compresses a day's events into 15 seconds, compresses hours of footage into a short, shareable video, perfect for quickly reviewing an entire day at a glance. With the optional HomeGuardian cloud solution, recordings are end-to-end encrypted and key events triggered by connected sensors are automatically captured and marked, making it easy to find important moments in the video timeline while protecting your data.
- **Local and Cloud AI Detection:** This camera is equipped with basic local AI detections, which will help you to only receive notification when a human is detected (motion and person detection). For advanced Cloud AI detection^⑤, capable of accurately recognising faces, vehicles, pets, and packages (requires a HomeGuardian plan subscription), which puts the camera on par with higher-end cameras.
- **2.4 GHz Wi-Fi 6 with WPA3 Support:** The camera is equipped with 2.4GHz Wi-Fi, which has wide coverage, better compatibility and anti-interference ability. It also supports the WPA3 standard to provide stronger security for your network.
