Power, on demand

Stay charged wherever you roam with this 20,000 mAh powerbank. The fixed 20W USB-C cable delivers rapid charging for your devices and itself, whilst its airplane-safe design means it’s ready to fly with you, anytime.

Double it up

Charge two devices at once with the Fiera’s extra 20W USB-C port. The LED display shows your remaining power (0-100%) at a glance, while its ultra-slim design (similar in size to a normal phone) easily slips into any pocket or bag.
