Product Code: 762078

R1,408

ENJOY THE MAGICAL SPEED OF USB 3.2

The sleek design features a sliding USB connector, which smoothly extends from the drive at the push of a thumb. The capless mechanical design eliminates the hassle of lost drive caps. The USB connector can be made ready for use with just one hand, for greater convenience when speed is a must.

USB 3.2 High-Speed Transmission Interface

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Now there is no reason to shy away from the higher cost of the USB 3.2 Gen 1 interface. The UV128 USB flash drive brings the convenience and speed of premium USB drives to budget-minded consumers.

Easy Thumb Activated Capless Design

The USB connector is concealed in the compact body, fully protected without the need for a drive cap. A simple thumb swipe forward makes it ready to use, and the reverse motion stows the connector for storage or travel.

Graceful and Minimalist Design

The matte texture body is scratchproof and dirt-repellent. The UV128 comes in an elegant shape and in two stylish color schemes. The simple curves of this series make fashion more comfortable than ever.

Create Own Personal Style

The UV128 is conveniently designed with a strap hole so that one can easily loop a string through and connect to a keychain or a mobile phone.
