with efficient use of space. Choose how you store, save more footage, and keep everything accessible without compromising on quality.

IMOU All-day Saving Recording Mode

In AOR mode, the camera records full-frame video only when an event is detected, and 1 second/frame at all other times. This meets the need for all-day video recording and saves storage space significantly, allowing more video to be stored on a smaller memory card.

Save more space without sacrificing quality

H.265 compression reduces bandwidth and storage requirements while maintaining high-quality footage. Up to 32-day continuous recording on a 512GB Micro SD card - worry less, capture more.

Choose your preferred storage solution

Whether it's SD cards, NVR, or cloud storage, you have flexible options to suit your needs.

Imou Protect - Level up your security

Imou Protect is a subscription service that is able to empower your IMOU products with advanced cloud computing technology and upgrade your security experiences.
