Small speaker, big sound

Little but mighty, the Javv proves that the best things come in small packages. With 12W peak power (6W RMS), this compact 2.0 speaker set won't take up much room on your desk, but will still bring the

Light up the night

Whether you think RGB stands for Red, Green, Blue or Really Good Bass, the Javv has both. Get the party started with the speaker's RGB LED illumination, complete with on/off touch control on top for easy use.

On the button

Some speakers are complicated – the Javv is not. With on/off touch control and an easy-to-reach knob for volume and power, this speaker set is as easy as it gets. More vibes, less hassle!

Plug and play (that song!)
