The XPF360R.ARGB is a triple pack of 120mm PWM REVERSE ARGB fans. The advanced daisy chain design allows for seamless fan-to-fan connection via a pin-to-pin locking mechanism, greatly simplifying installation and optimizing cable management for a tidy LED system.
The seamless Infinity Mirror design creates vivid, intense, and multi-layered lighting effects with flawless mirror reflections, ensuring an impressive visual experience from every angle.
At the same time, the hydro-bearing technology ensures a long service life and virtually silent operation, even under continuous load, thanks to minimal friction and vibration.

Daisy-Chain Design

The integrated daisy-chain connection simplifies installation and significantly reduces cable congestion, providing a tidy and efficient cable management solution.
