Ranger 2C

Pan & Tilt for 360° Coverage | Human Detection | Smart Tracking | Night Vision | Privacy Mode

Choose the best for you

The 2 megapixels allow you to capture clearer 1080P images. Imou Ranger 2C offers 2 different camera pixel options, so you can choose the one that suits you best.

0°-355° pan & -5°-80° tilt

The electric head of Ranger 2C allows it to pan 355° and tilt from -5° to 80°, ensuring that every corner of the room is covered.

Always focus on the target

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Ranger 2C will track and focus on the target when motion is detected.

Alerts you care about

Ranger 2C also can tell if the target is human by the powerful image processing technology.

Deter unwelcome visitor

Ranger 2C keeps an eye on your house, when someone breaks in, the siren will turn on to deter the unwelcome visitor.

Keep privacy in mind

With just a click in the app, Ranger 2C will automatically lower the camera to protect your personal privacy at home.

Care for your treasure all day long

Immediate alert, immediate care. Get to know what's happening to your treasured baby with Ranger 2C's abnormal sound alarm feature.

Connect your home from anywhere

Built-in speaker and microphone with echo cancellation feature allow you to interact with pets and family from anywhere.

24/7 protection

Rex provides infrared night vision and will automatically turn on and off to guard your home 24/7.

Imou Protect - Level up your security

Imou Protect is a subscription service that is able to empower your IMOU products with advanced cloud computing technology and upgrade your security experiences.

- Cloud Storage

Up to 30 days of unlimited history storage, put your home security in your phone from now on.

- Enhanced AI Detection

The supercomputing power in the cloud will provide more than 200 times the computing power of the built-in chip for all cameras. It also can amplify the object types that can be detected. With elevated accuracy, you won't be bothered with false alarms.

- Share Device to More Users
