The TIP SE utilizes 2 x OSRAM P8 LEDs with a total reflective optic lens to emit a max output of 700 lumens, a max peak beam intensity of 2,100cd and a max throw of 90 meters. The low power microprocessor enables an automatic hibernation with an ultra-low parasitic drain of 5µA. The built-in 500mAh Li-ion battery offers a max runtime of 50 hours. The USB-C charging port enables a convenient and reversible plug-in of the charging cable. The internal waterproof design can also provide effective protection for the charging port. The integrated ATR technology regulates the output of the TIP SE according to the working condition and ambient environment to maintain the optimal performance.

There are 2 user modes available. In DEMO Mode, it will automatically shut down in 30 seconds, designed for EDC and short-time illumination. In DAILY Mode, it will be constant on and designed for
