

NET TRANSCEIVER SFP/HS-85DLC05D MIKROTIK

NET TRANSCEIVER SFP/HS- 85DLC05D MIKROTIK

Model: HS-85DLC05D

Manufacturer: MIKROTIK

Product Code: 762951

R867

HS-85DLC05D is a reliable, industrial-grade 1G/2.5G SFP module designed for multi-mode fiber links up to 550 m. It uses the widely supported 850 nm wavelength and an LC connector, making it a practical choice for enterprise networks, industrial deployments, and ISP infrastructure.

This new model delivers all the essential features of our popular S-85DLC05D, but now with 2.5G support at the same affordable price. A simple and cost-effective upgrade for networks that need more bandwidth without changing their existing fiber infrastructure.

The module includes built-in digital diagnostics (DDM) for monitoring optical power, voltage, temperature, laser bias current, and other key parameters. These functions help detect abnormal activity or when customizable operating limits are exceeded. Monitoring makes it easier to plan ahead, make informed decisions, and schedule upgrades or maintenance based on real performance

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
