Designed with Modern Aesthetic

AX140 PWM integrates a total of 24 LEDs, the hexagonal RGB ring on the frame brings the design aesthetics to a new level. Further, it contains various lighting modes and supports 5V3PIN motherboard connectors for software control. All leading to complete and full customization of your build.

Built For System Cooling Performance

Whether as a case, radiator, or radiator fan, the AX140 PWM covers complete specifications and compatibility. The meticulous design from the bending angle of nine-blade fan set stabilizes the airflow, thereby drastically improves heat dissipation capacity. Simultaneously, reducing noise during fan operation. The AX140 PWM is capable of delivering stable operation while cooling a super high-end build!

Durable Rifle bearing

Compared to other hydraulic bearing fans, the Rifle bearing enables an extremely long-life span of 80,000 hours. It has been proven to have longer durability, longevity, and much lower noise.

Vibration Proof Structures

Integrated 8 rounded anti-vibration pads, reduce vibration and the noise caused from resonance phenomena.
