TP-Link AX300 WLAN 287 Mbit/s

Model: ARCHER TX1U NANO

Manufacturer: TP-LINK

EAN: 8885020627367

Product Code: 763383

R720

Lightning Speed, Solid Connections

Leveraging Wi-Fi 6 technology, achieve blazing-fast speeds up to 287 Mbps for flawless web browsing, instant email responses, and seamless social media sharing.

Compact and Portable

Nano-sized (0.69×0.62×0.28 in) for lightning-fast wireless — perfect for travel and remote work.

Easy to Setup

Comes preloaded with an internal driver for instant connectivity, eliminating tedious processes and allowing for a simple plug-and-perform experience without any hitches.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Smoother Online Experience

Works with MU-MIMO routers, which provide simultaneous data streams, boosting throughput and efficiency.

Seamless Wi-Fi Hotspot Sharing

Leverage AP Mode to transform your device into a robust Wi-Fi hotspot, conveniently providing fast internet access to numerous connections.

Wide Compatibility

Supported operating systems include Windows (11/10/7) and Linux (Kemel 3.10 and later)

Wi-Fi 6 Enabled: Lightning Speeds, Solid Connections

Upgrade your connectivity with a maximum throughput of 287 Mbps, delivering lightning-fast speeds and reliable performance for silky smooth streaming and efficient remote work.

Miniature Design for Maximum Portability

Enhance your wireless world with our sleek, pocket-friendly wireless Wi-Fi 6 adapter—engineered for top-tier mobility. It’s your perfect travel companion for high-speed connections.

Easy Setup: Plug and Play

Seamlessly integrate lightning-fast Wi-Fi 6 capabilities into your device with our USB Adapter—designed for true plug-and-play convenience and offering instant high-performance wireless connectivity at your fingertips.

Lower Latency, Higher Efficiency, and Less Congestion

MU-MIMO

Boosts the throughput and efficiency of the entire network when working with MU-MIMO routers, which provide multiple data streams simultaneously.

OFDMA
