This outstanding 120mm fan is an ideal addition to any gaming PC, promising impressive performance and stunning ARGB lighting with low noise levels. The XPF120G.ARGB.PWM fan features an integrated PWM function that allows for precise control of the fan speed to ensure optimal cooling performance. Even during demanding gaming sessions, this fan guarantees good and quiet airflow. One outstanding feature of this fan is its ARGB lighting. The vibrant lighting effects extend beyond the fan core, creating an impressive display of colors. The lighting can be customized individually to make the PC shine in a variety of colors. The fan can be mounted both inside the case and on a radiator or CPU cooler.

- optimal performance in every situation
- hydro bearing LED PWM-Fan
- LED effect with seven different colour options during operation
