

CPU COOLER ACC THERMAL PASTE/XZ019 XILENCE

Model: XZ019

Manufacturer: XILENCE

EAN: 4044953501074

Product Code: 763687

R640

Xilence X5 thermal paste was specifically designed for high-end processors. The very high thermal conductivity ensures for an efficient heat exchange and low temperatures! The paste works reliably at temperatures from -50 to +300°C – therefore, it is particularly well suited for extreme overclocking. Since the X5 is not electrically conductive, there is no danger for the surrounding hardware! Contents: 2.5 g.
